

"It is only with the heart that one can see rightly"

Have you ever tried to breathe without oxygen or smell without nose? It is the same that seeing a place, a thing or a person without paying attention.

The heart... we used to associate this with love, but it is only with the heart that one can see rightly, so why don't you start using it?

When we go by the seaside, we only see waves, the sea, the sun... We are not seeing life inside it, thousands of species, colors and feelings, thousands of people that are exactly at the same time seeing the same as you, thinking about how grateful they are because they can see the sea one more day, one more day of life, one more day of laughs and cries.

"We don't really appreciate what we have until we lose it" that is what they say. So why are we waiting for that time? Stand up, open your eyes and start feeling...

REMEMBER THAT WE CAN ONLY SEE WITH THE HEART!!!
